June 2014

Dear Parent/Carer

I am writing to give you advance notice that we are planning a year 8 Geography trip to the coast on 30th September 2014 to support the material covered in our first year 8 topic of **Coasts**. We will be visiting Seaford, the Cuckmere Haven and Birling Gap to study erosional landforms and coastal protection measures. The trip will run within normal school hours.

You will be invited to make a voluntary contribution of £12 which will cover the cost of the visit including transport and other incidental costs. This amount will be due in September.

All students are encouraged to attend the trip to further their understanding of a topic best shown outside the classroom and to appreciate the nearby coastline that we are fortunate to have. Please make a note of the date of the trip. The payment will be due after the well-deserved summer holidays!

A reminder with further details of the trip will be sent out at the beginning of the next term.

I hope you have a very pleasant summer.

Yours sincerely

Mr J Attrill
Teacher of Geography
