September 2018

Dear Parent/Carer

A Level Product Design

At the start of the A level course students will be supplied with most of the materials required for their practical work. A contribution of £10.00 is requested for materials, which covers all the materials needed in year 12 of the course.

We also recommend students obtain a revision guide to help with their theoretical knowledge. This guide supplements the course and supports the examination unit, which is worth 50%. The ISBN is 978151041082 and the guide is called AQA AS/A Level Design and Technology: Product Design. It costs £32.99. The guide is available at larger bookshops or online. This is strongly recommended as it will help with your child's theory knowledge in class and in the different examinations throughout the course.

Materials for the main coursework will be organised by the students. I would just like to remind you at this point that if the material contribution has not been made, the students cannot take the work home.

If you would like to discuss any matters concerning this outlay, please do not hesitate to contact me.

Yours sincerely

Mr K Treen
Curriculum Leader for Design & Technology
